- Photocopies of legitimate Club Membership Application forms of newly inducted members.

To ease the Awards Committee's referrals, kindly 'highlight' all specific references in the above documents.

Include a summary of how membership retention and recruitment is done, strategies, success stories and lesson learnt.

RAC Subang is very strict on members induction, that requires full board of directors approval. Guests have to attend at least 3 meetings and 1 service project before being considered for membership. For the time being, RAC Subang has 4 long term guests being considered for membership.

Membership were also terminated for members that have been missing club meetings and activities for a long time. Those members who moved away from PJ/Subang area and has difficulties in attending meetings and activities also have their membership terminated upon mutual consent. However, members who has medium term job and study obligation were kept in the club, with the understanding that they will return to active membership in the club.

RAC Subang has successfully inducted 4 new members and 3 of the 4 members will be inducted as incoming Board of Director in the new Rotary term, a testimony of the high standard and expectation RAC Subang has on its new members. All 14 members of RAC Subang are very active in club meetings and activities to ensure there are no 'passengers'.
